

# RI- ADDRESSING STIMULANT USE DISORDER CONFERENCE 2024

Topics :

- 1. Understand psychostimulants in the overdose epidemic and recognize population disparities.
- 2. Recognize signs of stimulant intoxication, overdosing on stimulants, and withdrawal.
- 3. Identify effective evidence-based interventions for acute stimulant intoxication and post-acute care needs for stimulant use disorder.
- 4. Increase tools and learn basic principles of de-escalation to promote safety for patients with active stimulant use and their caregivers.
- 5. Identify health risks associated with stimulant use and how to apply harm reduction interventions for all.
- 6. Assist in developing state priorities to reduce stimulant use-related harm and increase access to, and support, evidence-based practices that are effective with diverse populations particularly in high-risk areas.

 Friday, June 28, 2024

 8:00 AM - 3:00 PM
